Hi Bill,

I signed off PLN2020-00412's Geotechnical Review, with the following conditions:

[GEO] The consultant shall review and approve the grading and structural plans with respect to the geotechnical perspectives at Building permit stage (BLD2016-00161 to BLD2016-00164), and update the geotechnical investigation report to current scope and codes where appropriate.

Thank you!

All the best & Stay Safe,

Sherry

Hi Camille,

Thanks for sending this along.

Could I ask you to send me and Larry Jacobson the 4/8/22 letter from Earth Systems, Inc.?

Jack assumed I had seen it, but neither of us knew it existed.

Regards,

Rich

Hi Bill,

Please see attached letter from CSA. The Planning case for the modified grading on Lots 5-8 will need to be decided upon by the Director before associated BLD permits can be issued (assuming all comments on BLD permits have been addressed).

Regarding what is needed for Geo review of the BLD permits for Lots 5-8, please coordinate with Sherry.

Thanks
