Hi Christen –

Here's the final inspections for 88 Cowpens as they currently are reflected in our permit tracking system. Looks like Amanda at Sewer signed off on 7/20, but there are still quite a few others. For drainage, I need

- 1) Confirmation of drainage inspection corrections from 6/7 (attached email) and completion of site – Should be done with a final site walk-through that can be scheduled with me directly
- 2) Letter from Engineer of Record stating it was built per plan (with the change out of lined bioretention in lieu of planter)
- 3) Civil Engineer to provide As-Built plan for site.
- 4) O&M Agreement needs to be recorded for the site (Provided by Civil Engineer, OK'd by County, and then signed by responsible party) – reminder that it can take us a few days to review these, please send me a final draft sent to me sooner rather than later – the last one I have is from March (attached), but it needs the later updates that we made to lots 9 and 10 made to this one as well reflecting the conversion of the site features to bioretention rather than planters.

Thanks,

Melody Eldridge

Good morning!

Can you guys send me a screenshot of the agencies that still need to be signed off on this property? We're trying to get it finalized I'm the next week or two.

Thank you!

Christen for John
