

Santa Cruz/Palo Alto

Legend

☑ Santa Cruz & Palo Alto Way

proposed crosswalk would interfere with crossing when bus is waiting at the bus stop

Proposed location of new radar feedback sign. but if relocating crosswalk, this will need to be moved elsewhere

proposed new location of crosswalk

One suggestion is to add an island here.
Pro - will minimize crossing distance for pedestrians and give them a place to find refuge.
Pro - driver's attention is focused on approaching vehicles so crosswalk would be in their line of sight.
Con - may interfere with emergency vehicle access.
And left turn access from Palo Alto Way.
Q. can we consider a 4" curb in lieu of a 6" curb? or a painted island?
