

2023 San Mateo County Continuum of Care

QUESTION AND ANSWERS FROM APPLICANT INFORMATION SESSION

July 27, 2023

1. We had a change to our budget with HUD after the 2023 GIW was submitted. What is the process to make a change to the GIW and align the budget in the renewal project application?
 - a. There are a few circumstances that affect how this is handled. Possibilities are outlined below:
 - If the change is less than a 10% change between line items, this does not require a grant agreement amendment and can be made in your eSnaps project application to align with the current amended grant agreement.
 - If the change is more than a 10% change and you have recently completed a grant agreement amendment with HUD for your current grant term, you will need to complete your eSnaps application to align with the current GIW, and work with the field office to make further adjustments to align the grants during your grant agreement for the new grant (in 2024).
