

Fund the Future Acknowledgements

The Commission on the Status of Women of San Mateo County would like to acknowledge the various collaborators, partners, nonprofits, foundations, and San Mateo County employees who have contributed to the information presented in this report. All current commissioners, as well as those who are no longer with the CSW since 2023, have contributed their ideas, time and skills with the research and community engagement portion of this work.

Most of all, the CSW would like to thank the hundreds of women in San Mateo County who took our surveys, attended our events such as the RISE 2024 Women's Leadership Conference, and shared their personal stories with us. We asked, you shared, and we hope that together, we can create a better future for women in San Mateo County.
