SECTION 8.

PROGRESS OF WORK AND TIME OF COMPLETION

Attention is directed to the provisions of Section 8, "Prosecution and Progress," of the Standard Specifications, except as herein provided.

8-1. <u>Time of Completion</u>

The Contractor shall begin work within **TEN** (10) **CALENDAR DAYS** after receiving Notice to Proceed from the Department of Public Works, and shall diligently prosecute the same to completion before the expiration of

ONE HUNDRED TWENTY (120) WORKING DAYS

from the date of said beginning, as described above.

The Contractor is advised that punch list items are required to be completed before the expiration of the working days stated above.

The Contractor may request, in writing, for an extension of working days, which request shall state the reason for said request and the number of additional working days. The Engineer will consider said request and respond, in writing, stating either the number of additional working days approved or the reason for denying the request.

8-2. <u>Liquidated Damages</u>

Attention is directed to Section 8-1.03, "Beginning of Work," Section 8-1.06, "Time of Completion," and Section 8-1.07, "Liquidated Damages," of the Standard Specifications. The Contractor shall pay to the County of San Mateo the sum of Three Thousand Seven Hundred and Fifty (\$3,750.00) per calendar day for each and every calendar day delay over and above the number of working days above prescribed for finishing the work.

8-3. Progress Schedule

The Contractor is advised that an initial/baseline project schedule and subsequent schedule updates is required for the work included under this Contract, and such schedules shall be in accordance with these Special Provisions.

The provisions of Section 8-1.04, "Progress Schedule," of the Standard Specifications are superseded by the following:

"The Contractor shall submit a baseline project schedule to the

television (CCTV) inspection of the sanitary sewer lines must be performed by the Contractor. Said CCTV inspection shall conform to the provisions of item 106-4, "Closed Circuit Television (CCTV) Inspection of Sanitary Sewer Lines," except that said CCTV inspection shall be performed at the Contractor's sole expense, and no additional compensation will be allowed therefor.

The Contractor is further advised that should any damage occur to either public or private facilities (due to, for example, a sanitary sewer mainline backup) as a result of the Contractor not properly protecting the system and maintaining sanitary sewer service, as described above, the Contractor will be responsible for all costs involved in repairing or correcting said damage, and no additional compensation will be allowed therefor.

`104-2. Remove and Replace Existing Sanitary Sewer Manholes

Existing sanitary sewer manholes to be removed and replaced shall be removed and replaced in conformance with the provisions of the Standard Specifications, these Special Provisions, the Plans and as directed by the Engineer.

Sanitary sewer manholes shall be installed in advance of CIPP work.

Under this item of work, existing sanitary sewer manholes shall be removed and new sanitary sewer manholes shall be placed to the lines and elevations shown on the Plans, and up to five (5) feet of pipe on either side of the manhole shall be replaced as needed, as directed by the Engineer, and shall be installed in conformance with the details on the Plans. All work shall comply with the standards and specifications used by the Burlingame Hills Sewer Maintenance District.

Removal and replacing of existing sanitary sewer manholes shall be accomplished by removing the existing frame and cover, removing the existing concrete encasement, removing grade rings, removing the existing cone section and removing the existing base. A new sanitary sewer manhole shall then be constructed at the same location by pouring in place a new manhole base, and installing a pre-fabricated manhole barrel where necessary, cone section, and grade rings as necessary, pouring a new concrete encasement with reinforcing steel (concrete collar), and setting the new frame and cover. The Contractor's attention is directed to the paragraphs below concerning "Sanitary Sewer Manhole Construction". The Contractor is advised that pre-fabricated manhole bases are not allowed.

per each for these items, "Replace Existing Sanitary Sewer Manhole with Shallow Concrete Manhole in Shoulder/Valley Gutter/Embankment", "Replace Existing Sanitary Sewer Manhole with Shallow Concrete Manhole in Driveway", "Replace Existing Sanitary Sewer Manhole with Shallow Concrete Manhole in Street", and "Replace Existing Sanitary Sewer Manhole with Shallow Concrete Manhole in Easement", of these Special Provisions, and no additional compensation will be allowed therefor.

Full compensation for replacement of up to five (5) feet of sewer mains and laterals connected to the sanitary sewer manhole shall be considered as included in the Contract unit price paid per each for this item, "Remove and Replace Existing Sanitary Sewer Manholes," of these Special Provisions, and no additional compensation will be allowed therefor.

No adjustment of the Contract bid price will be made for any increase or decrease in the quantity of sanitary sewer manholes requiring removal and replacement. The provisions in Section 4-1.03B, "Increased or Decreased Quantities," of the Standard Specifications shall not apply to the item of Remove and Replace Existing Sanitary Sewer Manholes.

104-3. Install New Sanitary Sewer Manhole

The Contractor is advised that a new sanitary sewer manhole ("SSMHs") shall be installed approximately 150 feet west of SSMH 94, within the street, as shown on the Plans and as directed by the Engineer.

Sanitary sewer manholes shall conform to the provisions in Section 70, "Miscellaneous Facilities," of the Standard Specifications, these Special Provisions, the Plans, and the directions of the Engineer.

Sanitary sewer manholes shall be installed in advance of CIPP work.

Manholes shall be constructed as shown on the Plans. Foundations for new manholes shall be poured against a base that is firm and dry. **Precast manhole bases** shall not be permitted.

Concrete collars and cast-in-place concrete bases shall be constructed of Class 3 concrete and conform to the provisions of Section 51, "Concrete", of these Special Provisions.

New manholes shall be constructed over existing/new pipe where shown on the Plans. The foundations shall be poured such that the pipe is continuous through the

Notes: **(F)** Final Pay Quantities - See Section 9-1.015, "Final Pay Items," of the Standard Specifications. **(S)** Specialty Items - As defined in Section 8-1.01, "Subcontracting," of the Standard Specifications. **(R)** Revocable Item

^{*}This item has an assumed quantity to facilitate bidding. Actual quantity will be determined during construction.

of this Agreement, as full compensation for furnishing all labor, materials and equipment for doing all the work contemplated and embraced in this Agreement; the Contractor assumes any and all loss or damage arising out of the nature of the work aforesaid, or from the action of the elements, or from any unforeseen difficulties or obstructions which may arise or be encountered in the prosecution of the work until its acceptance by the County, and for all risks of every description connected with the work, and also assumes any and all expenses incurred by or in consequence of the suspension or discontinuance of work and for well and faithfully completing the work, and the whole thereof, in the manner and to the Plans, Specifications and Special Provisions and requirements of the Engineer hereunder. The Contractor shall guarantee all materials and workmanship for a period of one (1) year from date of acceptance of the project by the Director of Public Works. Any defects due to faulty materials, method of installation or workmanship within that period shall be repaired by the Contractor promptly upon notice by the Engineer, at the expense of the Contractor.

It is distinctly understood that the estimate set forth in the Notice to Contractors is only an approximation of the amount of work to be done and the County does not expressly or by implication agree that the actual amount of work will correspond with the amount set forth therein, and payment shall be made to the Contractor as above set forth.

Payment to the Contractor shall be made progressively by the County for the work and materials furnished under this Agreement in accordance with the provisions of Section 9 of the Special Provisions portion of these Contract documents.

III. <u>Term</u>: Time is of the essence in the Agreement, and the work to be performed hereunder shall be completed within

ONE HUNDRED TWENTY (120) WORKING DAYS

from the date of commencement of the work, which commencement shall be within TEN (10) CALENDAR DAYS after receiving Notice to Proceed from the Engineer.

IV. <u>Termination</u>: This Contract is subject to termination as provided by Section 4410 and Section 4411 of the Government Code of the State of California, being portions of the Emergency Termination of Public Contracts Act of 1949. In the event that the Contract is terminated pursuant to said sections, compensation to the Contractor shall be determined on the basis of the reasonable value of the work done, including preparatory work. As an exception to the foregoing, in the case of any fully completed separate item or portion of the work for which
