Re: Vacant Land | Permit No.: None
655 Miramar Drive | APN: 048-076-120 | Unincorporated, San Mateo County
Coastside County Water District -Water Resources

Dear Applicant:

The District received your application to install one 3/4" x 5/8" water service connection. The water demand worksheet has only one hose-bib as the total of end uses. The type of occupancy for the parcel is described as recreational in your application materials, but the County of San Mateo lists this APN as vacant land.

The District requires a building permit from the county to reference for the installation of a new water service to confirm that the installation of the hose bib meets the county's regulations and conditions of use for the parcel.

This installation of the new service for this parcel will need to be reviewed by the District engineer to determine if we can provide the minimum (20psi) pressure required for water service.

Once you have successfully obtained a building permit from the county for the installation of a hose bib on this property, please forward that information and drawings to the District.

Regards,

Cathleen Brennan
