Hi Bob,

Happy Holidays! It was nice to see you at Highland Estates this morning. As we discussed, please address the following:

1. Sediment has overloaded the silt fence at the bottom of Lot 9 where erosion has occurred. Please pull sediment away from the silt fence and repair/replace as needed.
2. Please install additional straw wattle check dams along the slope between Lots 9 and 10 where erosion has occurred to reduce sediment flow downslope at this location
3. Please order a street sweeper to sweep Cobblehill Rd as significant debris has built up on the roadway

Thanks so much!
