Subject: LAFCo File No. 17-12—Proposed Water Extension by the City of Redwood City to Proposed Single-family Home on Jefferson Avenue (APN 068-185-220) (Unincorporated San Mateo County) Pursuant to Government Code Section 56133 (less than one acre)

Summary

Pursuant to Government Code Section 56133, Commission approval is required for extension of water or sewer service by local agencies to territory outside an agency's boundaries. This section requires that the public agency apply to LAFCo by resolution on behalf of the landowner. In this case, the City of Redwood City has applied for extension of water service to a proposed single-family home on Jefferson Avenue in Unincorporated Emerald Lake Hills. A water connection is required by the County of San Mateo as a condition of a building permit. The project area is within the sphere of influence of the City of Redwood City and the City's water service area. Commission approval is recommended.

Staff Report

This proposal was submitted by resolution of the City of Redwood City on behalf of the property owner as a condition of approval for a building permit by the San Mateo County Planning and Building Department. The subject area is within the sphere of influence of the City of Redwood City and the City's water service area as designated by the San Francisco Public Utilities Commission (SFPUC). However, it is not contiguous to the City boundary and annexation is not feasible at this time. Please see the attached map illustrating the parcel's relationship to the City boundary.

Section 56133 permits extension of water service in anticipation of future annexation. In implementing Section 56133, LAFCo's policy on extension of service outside city or district boundaries recognizes that there may be unique local conditions among individual service providers and unincorporated communities. In urban areas requiring the full range of urban services, LAFCo policies favor annexation, especially of lands proposed for subdivision. The policy states the intention of the Commission to continue to encourage annexation of such areas and consider extension of services outside jurisdictional boundaries only where annexation is not feasible. In instances where an outside service agreement is a condition of

approval of a subdivision proposed for territory in an unincorporated area, LAFCo shall encourage the County to consult with the City whose sphere contains the subject territory in reviewing the development project.

In the case of the Unincorporated Emerald Lake Hills area, all water service is provided by the City of Redwood City as it is the wholesale purchaser of water from SFPUC for City territory as well as a broader area outside City boundaries. The City indicates the new connection will not have a significant impact on the City's total water allotment. The water extension would serve infill development from an existing water main and is consistent with County General Plan policies that encourage connection to municipal water and sewer in urban areas. The area is in the City's sphere of influence making it eligible for future annexation; however, the parcel in question is not contiguous to the City boundary and therefore not eligible for annexation. Emerald Lake Hills is a substantially developed residential neighborhood in the sphere of influence of the City of Redwood City. Future annexation of Emerald Lake Hills would require a General Plan amendment and rezoning by the City, and considerable collaboration between the City, County, property owners, and residents. Annexation of the parcel as part of a larger annexation is more likely if the parcel is already receiving City water service.

San Mateo County Environmental Health reports that the City of Redwood City is the water provider, the County-governed Emerald Lake Hills Sewer Maintenance District provides sewer service in the area, and the proposal has no adverse environmental health significance. There are no registered voters in the subject territory. The property owner is responsible for connecting to the water main in Jefferson Avenue.

California Environmental Quality Act

The project is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15303, Class 3, relating to new construction of up to three single-family homes.

Recommendation

By motion, approve LAFCo File No. 17-12—Proposed Water Extension by the City of Redwood City to Proposed Single-family Home on Jefferson Avenue (APN 068-185-220) (Unincorporated San Mateo County) and direct the Executive Officer to send a letter of approval to the City and the property owner.

Respectfully submitted,
